## 1977 Annual Report

The 36" dredge "Canadian", one of the world's largest cutter suction dredges, is shown in the background on the St. John River, where over 2,000,000 cubic metres of gravel were hydraulically pumped from the river bed into container dykes along both sides of the river, as can be clearly observed in the foreground.

The project for dredging and land reclamation in downtown Fredericton, New Brunswick was undertaken for the New Brunswick Department of Transportation.

Another view of the "Canadian" showing pontoon and pipeline through which the dredged material is pumped to shore.

## President's Report

Earnings of \$4,024,000 in the Second Quarter of 1977 have resulted in a profit for the six months ended June 30th of \$3,037,000. This compares with a loss of \$3,514,000 reported for the same period last year. The 1977 results include the Company's recovery of a claim against the State of California in the gross amount of \$10,700,000. Maximum provision for tax on this recovery has been included in the six months' results since the exact amount of the ultimate liability cannot be determined at this time.

The six months' results also reflect provisions of \$1,956,000 for losses incurred in 1977 and anticipated future losses from the Company's discontinued operations, particularly on real estate assets in the Province of Quebec. Every effort is, of course, being made to reduce this loss through acceleration of disposal programs in order to eliminate the heavy carrying costs on the assets involved.

It is important to note that the Company's excessive inventories of equipment have been reduced by almost \$3,000,000 in the six month period and sales of virtually all commercial property holdings in Toronto have now been closed. With a debt to equity ratio of approximately 2:1, the Company is in the strongest financial position that has existed for some years and further improvements to this ratio are expected by year-end.

On behalf of the Board,

President & Chief Executive Officer

## Unaudited Consolidated Statement of Earnings

# To The Shareholders

For the year ended December 31, 1977, Bovis Corporation Limited had net earnings of \$1,153,000 compared with a loss of (\$14,970,000) in 1976.

During the year ended December 31, 1977, management continued to concentrate its efforts on restoring the financial position and profit potential of your Company. Whereas the net profit of \$1,153,000 is not an adequate return to the shareholders, other achievements in difficult markets give cause for some optimism. Disposition programmes which commenced in 1976 and which were primarily aimed at reducing the high cost debt associated with undeveloped commercial properties and excess inventories, continued through the year. Ongoing operations have likewise been subjected to continuous intensive evaluation and control. The positive results of these efforts are perhaps best reflected in the following comparative summary of financial highlights.

	1977	1976
<b>Revenues, Earnings</b>		
Gross revenues from ongoing operations .....	\$56,753,000	\$55,622,000
Net earnings (loss)		
Ongoing operations .....	71,000	(5,307,000)
Claim recovery — net of tax .....	5,694,000	—
Discontinued operations .....	(4,612,000)	(9,663,000)
Net earnings (loss) .....	1,153,000	(14,970,000)
<b>Assets, Liabilities, Working Capital</b>		
Total Assets .....	68,887,000	90,599,000
Assets held in disposal programme .....	19,565,000	28,994,000
Working capital .....	7,288,000	295,000
Bank indebtedness .....	8,384,000	22,684,000
Other secured debt .....	21,774,000	31,464,000
Total interest bearing debt .....	30,158,000	54,148,000
<b>Shareholders Equity</b>		
Total .....	\$19,788,000	\$18,635,000
Per Share .....	\$1.40	\$1.32

Although earnings from ongoing operations were a disappointing \$71,000 in 1977, the significant feature is the turn-around from the loss of (\$5,307,000) suffered by the same operations in 1976. Continued improvement is expected in 1978. More detailed comment on the individual operations is contained later in this report.

The long outstanding claim arising out of the construction of an underground powerhouse at Oroville Dam in California by a Joint Venture sponsored by a wholly-owned subsidiary of the Company, was resolved in 1977. The Company's gross share of this award was \$10,994,000. The Company has made full provision for taxes of \$5,300,000 on this award in the financial statements but, on the advice of counsel, intends to contest the amount payable.

Assets held for disposal were reduced during the year by \$9,429,000. The principal single asset remaining in this category is a 12-storey office building in Edmonton which was completed in 1977 and is now 92% leased and producing an adequate return.

Our objective has been to complete the disposition programmes by the end of 1978 and management believes this target is still attainable with the possible exception of some real estate assets in the Province of Quebec. A large proportion of our 1977 loss from discontinued operations arose from a reassessment of the Quebec assets which now have a written-down value of about \$6,000,000. The Quebec real estate market continues to be sluggish and although substantial reduction in the Company's investment there is anticipated, it is probably not realistic to expect full realization in 1978.

In addition to dispositions under the programmes commenced in 1976, the Company on September 16th, 1977, accepted an offer from Consolidated Building Corporation Limited for the purchase of 1,908,400 shares of Consolidated Building, then owned by the Company, plus an additional 290,000 shares to be purchased by the Company under an agreement entered into in 1973, in each case at a price of \$4.00 per share. The transaction was closed on January 6, 1978 and has been reflected in the Company's consolidated financial statements as at December 31, 1977 including application of the net cash proceeds of \$7,746,000 as a reduction of current bank indebtedness. Your Company's share of Consolidated Building's earnings in 1977 was \$285,000. The comparative figure in 1976 was \$798,000.

Although the Company's share of Consolidated Building's aggregate earnings since the date of the initial acquisition in 1973 has approximately offset the costs of carrying the investment, the cash flow received by the Company from the dividends disbursed by Consolidated Building has been substantially less than the carrying costs of approximately \$600,000 per year. The decision to sell was dictated in part by the relatively low cash return from this investment.

The litigation described in Note 18 to the balance sheet, in connection with charges laid against a subsidiary of the Company to defraud the Governments of Canada and Ontario, is presently before the courts. The Company is taking every measure to assure that its subsidiary is adequately defended.

The significant reductions in bank indebtedness and other interest-bearing debt and the substantial improvement in working capital have already restored much of the confidence of the financial community in the Company. Management is dedicated to the preservation and strengthening of the Company in this essential area.

## **REVIEW OF OPERATIONS**

### **Newfoundland Construction**

The Construction Division of McNamara Corporation of Newfoundland Limited ended the year with a satisfactory profit on a volume of \$12,000,000. The major projects carried out in 1977 were the completion of the Bay D'Espoir Hydro Development for the Newfoundland and Labrador Power Corporation; the construction of 45 miles of highway on the North West Coast of the Province and the start of new docking facilities at Port aux Basques, which is scheduled for completion in June, 1978.

During the year the continuing programme of updating the equipment fleet involved an expenditure of \$2,300,000 including a new 4,000-ton per day asphalt plant.

Despite Government restraints on construction spending, we are going into 1978 with a substantial carry-over volume of work consisting mainly of the \$5,000,000 Waterford Valley Sewer in St. John's and the completion of the new \$3,000,000 docking facilities for Port aux Basques.

### **Marine Operation**

After a disappointing year in 1976, the Marine Division this year made a satisfactory profit on a volume from marine dredging and construction of \$7,600,000, an increase in volume of 30% over last year. The

major project completed during the year was a \$3,000,000 land reclamation project to construct approach ways for the new Fredericton Bridge for the New Brunswick Department of Highways. The job, which commenced in early July, consisted of dredging approximately 1,500,000 yards and finished ahead of schedule. Although the marine operation does not have a large backlog of work carrying over into 1978, management is confident that the division will compete successfully for jobs tendered during 1978 and maintain current levels of profitability.

#### **McNamara Industries**

This division profitably completed approximately \$5,400,000 of steel fabrication and erection work in 1977, an increase of about 10% over the previous year. The major projects carried out in 1977 were the installation of two large oil storage tanks at the Holyrood Generating Station, Phase II, and the extension to the Avalon Mall in St. John's.

The division is undertaking fairly substantial capital expenditures in 1978 to upgrade its production facilities. The plans include a modern Beam Line installation, which, together with other related works will improve the fabricating facilities and material flow through the plant and will help the division to maintain its competitive position in the market. The division has a higher carry-over volume of work for 1978 than in previous years.

#### **Concrete Products**

This division had a successful year in 1977 with a volume of \$6,000,000, up slightly from 1976. Production of ready-mix concrete increased approximately 12% from 1976. The outlook for 1978 is not quantifiable at this time, but as the division is the major ready-mix concrete and aggregate supplier in the St. John's area, and has modern and efficient facilities, obtaining its share of the market appears reasonably assured.

#### **Residential Property**

This division, which develops raw land holdings to the serviced land stage, had another satisfactory year, producing a good profit on a volume of \$5,400,000, up from \$4,700,000 in the previous year. The major sales in 1977 were in the Cambridge and Peterborough areas in Southern Ontario. Profits may be expected to decline in 1978 in recognition of the general slowdown in residential development in Ontario, which has led to a decision to reduce inventories held for development purposes.

#### **General Supply/Equipment Federal**

This division continued to experience operating difficulties in 1977 and recorded an unprofitable, and unsatisfactory, year on revenues of \$17,300,000. Sales volumes did not materialise in a soft market and the division was burdened with equipment and parts inventory which were excessive in relation to the achieved sales. However, inventories, including inventories of discontinued lines, have reduced to \$14,100,000 at December 31, 1977, down from \$17,000,000 at December 31, 1976 and \$25,000,000 at December 31, 1975. While the depressed market that has prevailed for the past two years is still with us and will probably continue during 1978, the ongoing programme of inventory reductions, coupled with improved manpower utilization and other reductions in overheads, should produce a better result for this operation in 1978.

#### **Control & Metering**

This division's volume, which is derived from the design, supply and installation of water treatment monitoring devices, decreased from \$2,900,000 in 1976 to approximately \$2,700,000 in 1977. Difficulties with late deliveries from suppliers on whom this division is heavily reliant, have been substantially resolved and a considerable volume of work in hand makes the upcoming year look promising.

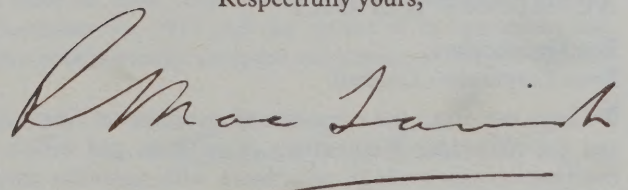

## CONCLUSION

In summary, the major achievements of 1977 were the debt reduction, the claim recovery, and the general improvement in construction related activities. On the other hand, continuing problems with the equipment operations, the unstable situation in the Province of Quebec and the non-recurring loss on the sale of the Company's interest in Consolidated Building, all contributed to a less than satisfactory profit achievement in the year. Management believes that better results can be anticipated from the equipment operations in 1978 and that the disposition of the remaining real estate in Quebec will ultimately be achieved without further material loss. Continued strengthening of construction related activities is also anticipated and, in this regard, as recently announced, Mr. G. B. Morris has been employed by the Company to head up a new division which will provide project management and engineering services utilizing the considerable pool of talent available within the organization. Mr. Morris' own expertise is well recognized in the industry and the Company is most fortunate to have obtained his services.

During the year we welcomed to the Board of Directors Mr. O. Brooks, the Chief Financial Officer and a Director of our major shareholder, The Peninsular & Oriental Steam Navigation Company in the United Kingdom. Mr. H. G. Emerson resigned from the Board during the year but continues to act as the Company's legal counsel.

On behalf of all Directors and Management, I would like to extend our appreciation to all of our faithful employees for their conscientious efforts in the past year.

Respectfully yours,

A handwritten signature in dark ink, appearing to read "R. MacTavish", with a horizontal line drawn underneath it.

R. MacTavish

### AUDITORS' REPORT

The Shareholders,  
Bovis Corporation Limited.

We have examined the consolidated statement of financial position of Bovis Corporation Limited as at December 31, 1977 and the consolidated statements of earnings and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

# Bovis Corporation Limited and Subsidiaries

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 1977

### 1. Summary of significant accounting policies

a) The consolidated financial statements include the accounts of the Company and its subsidiary companies.

b) Recognition of Income

i) Income from construction projects and construction joint ventures is recognized on the percentage of completion method.

ii) It is the policy of the Company not to reflect construction or other claims in the financial statements until the compensation has been awarded, but to expense the costs relating to such claims as incurred.

iii) The Company's accounting policies relating to its property development activities have been established in accordance with the recommendations of the Canadian Institute of Public Real Estate Companies.

The Company follows the policy of capitalizing as part of the cost of property for sale or under development and land held for future development:

— direct carrying costs such as mortgage interest, realty taxes and other costs which pertain to such properties; and

— interest on general borrowings considered applicable.

The total of such costs included in the cost of properties held for sale or under development or land held for future development as at December 31, 1977, amounted to \$1,390,000 (1976 — \$1,581,000).

iv) Income from property transactions is recognized as follows:

Land Sales — when all material conditions have been fulfilled, at least 15% of the purchase price has been received and interest is accruing at a reasonable rate on the balance due under the sale.

c) Inventories and construction contracts in progress are valued at the lower of cost and net realizable value.

d) Investment in construction joint ventures is adjusted by the Company's share of earnings or losses to date.

e) Property, plant and equipment is stated at cost and depreciated over the estimated useful life of the related assets on the diminishing balance method for substantially all assets and the straight-line method for marine equipment. Plant and equipment under lease, where it is the intention to exercise the related options to purchase, are capitalized and depreciated. Expenditures for maintenance and repairs which do not materially extend the life of assets are charged to operations.

### Discontinued Operations

a) During 1977, the Company continued upon the disposition programme commenced in 1976. A major addition to the 1976 programme in 1977 was the decision to dispose of the Company's investment in approximately 30% of the common shares of Consolidated Building Corporation (see also Note 3).

The earnings or losses from operations in the discontinued programme and the costs incurred and expected to be incurred in the future on an orderly disposition, have been reflected on the consolidated statement of earnings under the caption "loss from discontinued operations".

In the following summary of the discontinued operations, the 1976 consolidated financial statements have been restated to conform with the current year's presentation.

	1977	1976
Net sales .....	\$11,987,000	\$31,542,000
Costs and expenses .....	15,613,000	42,003,000
	\$ 3,626,000	\$10,461,000
Loss on sale of investment in Consolidated Building Corporation .....	1,271,000	—
Equity in Earnings of Consolidated Building Corporation .....	(285,000)	(798,000)
Net Loss .....	\$ 4,612,000	\$ 9,663,000

The above costs and expenses include depreciation and interest of \$7,000 and \$1,225,000 respectively (1976 — \$54,000 and \$2,255,000 respectively).

b) The remaining assets of the discontinued businesses are valued at estimated net realizable values and are grouped on the consolidated financial statements under the caption "assets held for disposal" and include:

	1977	1976
Receivable on Agreement for sale of Ontario Housing Division . . . . .	\$ 812,000	\$ 2,750,000
Inventories of equipment . . . . .	1,431,000	3,074,000
Commercial property and housing assets. . . . .	16,028,000	20,641,000
Mortgage loans . . . . .	1,294,000	2,529,000
	<u>\$19,565,000</u>	<u>\$28,994,000</u>

The Company has extended the maturity date on the receivable from the purchaser of the Ontario Housing Division until March, 1979. Under the terms of the extension agreement, the balance is payable in minimum monthly instalments or as the assets originally acquired by the purchaser are sold to third parties. Title to these assets remains with the Company until full payment has been received.

	1977	1976
c) The indebtedness on assets held for disposal includes:		
Mortgages and mortgage advances on commercial property and housing assets. (The average rate of interest on these mortgages and advances is 11.67%) . . . . .	\$10,944,000	\$14,514,000
Chattel mortgages on discontinued lines of equipment . . . . .	603,000	2,327,000
Bank letter of credit on property asset . . . . .	415,000	651,000
Bank loan secured by mortgage loan portfolio of a subsidiary company . . . . .	404,000	1,242,000
	<u>\$12,366,000</u>	<u>\$18,734,000</u>

### 3. Consolidated Building Corporation Limited

On September 16, 1977, the Company accepted an offer to purchase from Consolidated Building Corporation Limited, for 1,908,400 shares of Consolidated Building, then owned by the Company, plus an additional 290,000 shares to be purchased by the Company under an agreement entered into in 1973, in each case at a price of \$4.00 per share. The purchase by Consolidated Building was ratified by its shareholders on December 2, 1977 and by the Supreme Court of Ontario on December 22, 1977. The transactions, which were closed on January 6, 1978, have been reflected in the accompanying consolidated financial statements as at December 31, 1977 and net cash proceeds of \$7,746,000 received on closing have been applied as a reduction of the current bank indebtedness as at December 31.

### 4. Mortgages receivable

	1977	1976
Mortgages receivable. . . . .	\$ 5,254,000	\$ 4,783,000
Average rate of interest . . . . .	9.72%	9.70%

### 5. Share participation plan

The Company has two share participation plans under which 720,000 shares were reserved. The original plan became effective in 1971 and the second plan in 1975. The Company provides interest-free loans to officers and key employees to enable the purchase of shares.

Under the original plan, the loans may be repaid at any time and mature ten years from the purchase date. The shares purchased are held by a trustee and may be released to the employee at a rate of up to 20% per annum commencing one year after the purchase date, provided pro-rata payment on account of the loan is received.

Under the second plan, loans are repayable by monthly payroll deduction over a five year period or sooner, at the option of the employee. Shares purchased are held by a trustee and may be released to the employee in the equivalent percentage to the repayment of his loan.

Shares reserved, issued and released under these plans are as follows:

	Original Plan	Second Plan	Total
Reserved. . . . .	520,000	200,000	720,000
Issued and held by trustee at January 1, 1977 . . . . .	410,790	93,900	504,690
Shares released during the year. . . . .	—	12,000	12,000
Issued and held by trustee at December 31, 1977. . . . .	410,790	81,900	492,690

Loans outstanding to officers and key employees at December 31, 1977 in connection with the purchase of shares were \$428,000 (of which \$139,000 were to officers who are also directors). The 492,690 shares held by the trustee include 254,684 shares held against the aforementioned loans. The remaining shares are held against unpaid loans made to former officers and key employees.

Employees who are terminated by the Company are indemnified against loss under both plans should the proceeds on the ultimate sale of the shares by the trustee be less than the employee's related outstanding loan. Existing officers and key employees are also indemnified against loss in certain circumstances under the original plan.

#### 6. Bank indebtedness, including term loans

The bank indebtedness, including term loans, is secured by accounts receivable, specified land and premises and a first floating charge on the assets of the Company and operating subsidiaries. The term loan is repayable \$1,000,000 in 1978 and the balance in 1979.

The Company has given covenants to its bankers that provide, among other things, for the maintenance of a minimum level of shareholders' equity and level of debt, as defined, to shareholders' equity. The Company is restricted, among other things, from paying dividends without their prior approval.

#### 7. Accounts, notes payable and accrued charges

The accounts and notes payable include approximately \$5,742,000 (1976 — \$9,358,000) due to equipment suppliers and finance companies, which are secured by inventories of equipment.

#### 8. Mortgages on property for sale or under development

	1977	1976
Mortgages on property for sale or under development. . . . .	\$ 536,000	\$1,236,000

Mortgages on property for sale or under development will be discharged out of proceeds of sales which, it is anticipated, will be obtained prior to the maturity date of these liabilities. The average rate of interest on these mortgages is 9.25% (1976 — 9.55%).

#### 9. Deferred income

The Company sold and leased back certain marine equipment in prior years. The excess of the proceeds of sales over net book value has been included in deferred income and is being taken into earnings on a straight-line basis over the terms of the eight-year leases. The Company has options to repurchase for \$2,250,000 at the end of the lease period.

#### 10. Other mortgages and obligations

This represents mortgages and capitalized lease obligations on plant and equipment. These balances bear interest at an average rate of 10.84% and are repayable as to principal approximately as follows:

1978 . . . . .	\$ 1,070,000
1979 . . . . .	578,000
1980 . . . . .	377,000
1981 . . . . .	169,000
1982 . . . . .	84,000
	<u>\$ 2,278,000</u>

#### 11. Mortgages on land held for future development

The balances at December 31, 1977 bear interest at an average rate of 9.04% and are repayable as to principal approximately as follows:

1978 . . . . .	717,000
1979 . . . . .	270,000
1980 . . . . .	181,000
1981 . . . . .	22,000
1982 and thereafter . . . . .	481,000
	<u>\$1,671,000</u>

#### 12. Remuneration of directors and senior officers

Remuneration, of directors and senior officers (as defined by the Business Corporations Act — Ontario) from the Company and its subsidiaries for the year totalled \$615,000 (1976 — \$877,000).

#### 13. Pension Plan

Based upon actuarial valuation of the Company's pension plan as at December 31, 1976, the unfunded liability as at December 31, 1977 amounts to approximately \$485,000. This unfunded liability will be paid and expensed in amounts of \$77,000 per annum up to December 31, 1980 and approximately \$49,000 thereafter.

#### 14. Gross Revenue

The gross revenue by class of business is broken down as follows:

	1977	%	1976	%
Construction . . . . .	\$20,037,000	35.3	\$24,093,000	43.3
Marine dredging . . . . .	5,237,000	9.2	1,949,000	3.5
Sales of equipment . . . . .	17,339,000	30.6	16,219,000	29.2
Sales of building materials . . . . .	8,700,000	15.3	8,617,000	15.5
Property development . . . . .	5,440,000	9.6	4,744,000	8.5
	<u>\$56,753,000</u>	<u>100.0</u>	<u>\$55,622,000</u>	<u>100.0</u>
Discontinued operations (Note 2(a)) . . . . .	<u>\$11,987,000</u>		<u>\$31,542,000</u>	

**15. Earnings (Loss) per share**

Earnings (loss) per share has been calculated on the basis of the weighted average number of shares outstanding during the periods.

**16. Income taxes**

At December 31, 1977, the Company and its subsidiaries, in aggregate for Canadian income purposes, had a net unrecorded deferred tax debit of approximately \$10,000,000. The principal item contributing to this net unrecorded tax debit is the existence of losses for tax purposes from the current and prior years.

The ultimate reductions of income taxes which may result from the use of these losses will be included in income as extraordinary items when, and to the extent that, they are realized.

The provision for income taxes reflected in the consolidated statement of earnings relates to a potential liability which a subsidiary of the Company may have for United States and State of California income taxes on a claim recovered from the State of California by a joint venture sponsored by a subsidiary of the Company. The subsidiary intends to contest the amount of income taxes payable.

**17. Commitments and Contingencies**

- a) The long-term lease commitments of the Company consist of the marine equipment leases (see Note 9) and various non-capitalized leases on other equipment and premises used by the operating divisions. The aggregate annual lease cost of these commitments is estimated to be approximately \$2,815,000 (1976 — \$2,686,000).
- b) The Company is contingently liable under recourse provisions of conditional sales contracts. The amount of such contracts outstanding at December 31, 1977 was approximately \$850,000 (1976 — \$1,500,000).
- c) The Company is contingently liable with respect to letters of guarantee in the amount of \$35,000 (1976 — \$1,312,000).

**18. Litigation**

In March 1975, a subsidiary of the Company was charged together with twelve other companies, with conspiring to defraud the Government of Canada, the Government of the Province of Ontario and the Toronto and Hamilton Harbour Commissions in connection with certain dredging contracts. The proceedings and related civil actions are currently in process and the ultimate liability, if any, of the subsidiary cannot now be determined.

**19. Anti-Inflation Legislation**

The Company and its subsidiaries are subject to the Federal Government's Anti-Inflation Legislation, which became effective October 14, 1975, which limits or requires justification for increases in profits, compensation and dividends.
